Attraction Guide

Attractions in Tampa Bay Area:

Museum of Science and Industry

4801 E. Fowler Ave.

With more than 450 hand-on exhibits, visitors become part of the action and can experience hurricane-force winds, zero-gravity and the effects of simulated flight as well as displays on anatomy and much, much more.

Busch Gardens

3000 E. Busch Blvd.

Prepare to be overwhelmed! This theme park, based on Africa, is divided into 10 sections that showcase exotic animals, roller coasters, and live entertainment. While you're there, head for "Edge of Africa" and come face-to-face with hyenas, lions and crocodiles, visit "The Congo" and check out the water rides, etc.

Florida Aquarium

701 Channelside Dr.

This amazing attraction truly explores sea life by featuring more than 20,000 plants and animals in fresh and saltwater environments. Exhibits document the movement of water from wetlands to ocean and include a million-gallon coral reef display that houses fish of all kinds.

Tampa Museum of Art

600 N. Ashley St.

This striking riverside museum boasts an amazing collection of classical Greek and Roman artwork – one of the country's best. It also prides itself on 20th century American acquisitions including photographs, works on paper and sculpture.

Ybor City Walking Tour

1818 E. 9th Ave.

(Sponsored by the Ybor City State Museum Society and the Chamber of Commerce, these walking tours wind through one of Tampa's most historic (and vibrant) districts. Led by a local resident, the tours last about 1.5 hours and begin at the museum.)

Henry B. Plant Museum

401 W. Kennedy Blvd.

Housed in the former Tampa Bay Hotel, a Victorian-era extravaganza inspired by the Alhambra, this museum documents Tampa's history and development. Special exhibits showcase the city's role in the Spanish-American War and chart its progression from resort town to modern-day metropolis.)

Lowry Park Zoo

1101 W. Sligh Ave.

(Located on 24 landscaped acres, this zoo houses animals from four continents in areas reminiscent of their natural habitats. Environments for primates, Asian animals, and creatures native to Florida coexist with a bird aviary, a petting zoo and an aquatic center that shelters manatees.)
